

CURRICULUM VITAE

Carolyn R. Baylor, Ph.D., CCC-SLP

Personal Data

Email: cbaylor@uw.edu

Education

1987 – 1991 **Bachelor of Science, Speech and Hearing Sciences**
University of Washington
Seattle, WA

1991 – 1993 **Master of Science, Speech-Language Pathology**
University of Washington
Seattle, WA

Thesis Title: The effects of semantic and syntactic context on the actual and estimated sentence intelligibility of dysarthric speakers

2002 – 2007 **Doctor of Philosophy, Speech-Language Pathology**
University of Washington
Seattle, WA

Dissertation Title: Initial psychometric testing of the Communicative Participation Scale using Item Response Theory in a spasmodic dysphonia sample

Post-Graduate Training

1993 **Speech-Language Pathologist, Clinical Internship Post-Masters Degree**
University of Washington Medical Center / Harborview Medical Center
Seattle, WA

2007 – 2008 **T32 Post-doctoral Fellowship in Rehabilitation Sciences**
Funded by National Center for Medical Rehabilitation Research
University of Washington, Department of Rehabilitation Medicine, Seattle, WA

2008 – 2009 **University of Washington Advanced Rehabilitation Research Training Grant**
 Funded by National Institute of Disability and Rehabilitation Research (NIDRR)
 University of Washington, Department of Rehabilitation Medicine, Seattle, WA

Faculty Positions Held

2009 – 2013 **Acting Assistant Professor**
 Department of Rehabilitation Medicine
 University of Washington, Seattle, WA

2013 – 2017 **Assistant Professor**
 Department of Rehabilitation Medicine
 University of Washington, Seattle, WA

2013 – 2017 **Adjunct Assistant Professor**
 Department of Speech and Hearing Sciences
 University of Washington, Seattle, WA

2017 – present **Associate Professor, WOT**
 Department of Rehabilitation Medicine
 University of Washington, Seattle, WA

2017 – present **Adjunct Associate Professor**
 Department of Speech and Hearing Sciences
 University of Washington, Seattle, WA

Hospital / Clinical Positions Held

1994 – 1996 **Speech-Language Pathologist**
 St. Joseph Medical Center
 Tacoma, WA

1996 – 2001 **Speech-Language Pathologist**
 Virginia Mason Medical Center – Otolaryngology / Head and Neck Surgery
 Seattle, WA

Honors

1992 **American Speech-Language-Hearing Foundation**
 Graduate Student Scholarship

1994 **Carrell-Miner Clinical Achievement Award**
 University of Washington – Department of Speech and Hearing Sciences

- 2007 **American Speech-Language-Hearing Association**
Conference scholarship for student submission to convention program
- 2011 **American Speech-Language-Hearing Association**
Recipient of travel award and acceptance to “Lessons for Success” research training conference
- 2012 **2011 Editors’ Award for the *American Journal of Speech-Language Pathology*.**

Baylor, C. R., Burns, M., Eadie, T. L., Britton, D., & Yorkston, K. M. (2011). A qualitative study of interference with communicative participation across communication disorders in adults. *American Journal of Speech-Language Pathology, 20*, 269-287. PMID: 21813820
- 2012 **American Speech-Language-Hearing Association Research-Mentor Pair Travel Award** for annual ASHA convention. Mentor to Peter Meulenbroek.
- 2016 **2015 Editors’ Award for the *American Journal of Speech-Language Pathology*.**

Burns, M., **Baylor, C.,** Dudgeon, B. J., Starks, H., & Yorkston, K. (2015). Asking the stakeholders: perspectives of individuals with aphasia, their family caregivers, and physicians regarding communication during medical interactions. *American Journal of Speech-Language Pathology, 24*, 341-357. PMID: 25760479
- 2018 **Meritorious Poster – American Speech-Language-Hearing Association Annual Convention**

Eadie, T., Kapsner-Smith, M., Bolt, S., Sauder, C., **Baylor, C.,** Yorkston, K., & Futran, N. (2018). *Communicative participation and quality of life in pre-treatment patients with head and neck cancer*. Paper presented at the American Speech-Language-Hearing Association Annual Convention, Boston, MA.
- 2019 **Erskine Visiting Fellow; University of Canterbury, Christchurch, New Zealand**
Additional detail under ‘Special International Responsibilities’

Current Licenses to Practice

- 1994 - present **Licensed Speech-Language Pathologist**
Washington State LL 00001087
- 1994 - present **Certificate of Clinical Competence**
American Speech-Language-Hearing Foundation

Professional Organizations

1994 – present **American Speech-Language-Hearing Association**

1994 – present **Washington State Speech-Language-Hearing Association**

Teaching Responsibilities

1991 – 1993 **Teaching Assistant**

Department of Speech and Hearing Sciences
University of Washington, Seattle, WA

Laboratory Instructor – undergraduate speech science courses
Responsible for approximately 75% of quiz sections

1996 – 2001 **Clinical Supervisor**

Virginia Mason Medical Center, Seattle, WA
Supervised speech pathology internship students in voice disorders clinic

1998; 2000 **Interim Clinical Supervisor**

University of Washington Speech and Hearing Clinic, Seattle, WA
Interim supervisor in voice practicum

2002 – 2003 **Teaching Assistant**

Department of Speech and Hearing Sciences
University of Washington, Seattle, WA

Laboratory Instructor – undergraduate course in assessment of speech and language disorders. Responsible for approximately 50% of quiz sections

Laboratory Instructor – undergraduate course in anatomy and physiology for speech. Responsible for 100% of quiz sections

Course Instructor – graduate voice disorders course
Responsible for approximately 30% of the course

Clinical Supervisor – graduate practicum in neurologic communication disorders

2008 **Co-Instructor**

Department of Speech and Hearing Sciences
University of Washington, Seattle, WA

Introduction to Treatment of Speech and Language Disorders (SPSHC 406)
Undergraduate course. Responsible for 75% of the course

Introduction to Research Methods (SPHSC 506)
Master's level course. Responsible for 50% of the course

2009 **Instructor**
Department of Speech and Hearing Sciences
University of Washington, Seattle, WA

Clinical Supervisor – graduate practicum in neurologic communication disorders

2009 – present **Instructor**
Department of Speech and Hearing Sciences
University of Washington, Seattle, WA

Introduction to Treatment of Speech and Language Disorders (SPSHC 406/405)
Undergraduate course. Responsible for 100% of the course. This class ran as SPHSC 406 for 2009 – 2019 and was taught spring and summer quarters. In 2020 the course will transition to SPHSC 405 and will be taught spring quarter only.

2010 – present **Co-Instructor**
Department of Rehabilitation Medicine
University of Washington, Seattle, WA

Special topics seminar: Effective patient-provider communication for patients with communication disorders (for medical students).
This consists of a two-hour seminar presented annually. Responsible for 30% of teaching.

2012-2013 **Co-Instructor**
Department of Rehabilitation Medicine
University of Washington

Review course on communication disorders for rehabilitation residents
Responsible for approximately 25% of the course.

2012 - 2013 **Instructor**
Department of Speech and Hearing Sciences
University of Washington, Seattle, WA

Introduction to Research Methods (SPSHC 506)
Master's level course. Responsible for 100% of the course in 2012; and 30% of the course in 2013.

- 2013-present **Co-Instructor**
 Department of Rehabilitation Medicine / Speech and Hearing Sciences
 University of Washington, Seattle, WA
- Effective patient-provider communication for patients with communication disorders (for speech-pathology students; SPHSC Seminar).
 Responsible for 50% of teaching.
- 2016 - 2019 **Instructor**
 Department of Speech and Hearing Sciences
 University of Washington, Seattle, WA
- Social and Cultural Aspects of Communication (SPHSC 308)
 Undergraduate course. Responsible for 100% of course.
- 2016 - 2018 **Co-Instructor**
 Department of Speech and Hearing Sciences
 University of Washington, Seattle, WA
- Introduction to Speech and Language Disorders (SPHSC 305)
 Undergraduate course. Responsible for 50% of course.
- 2016- present **Co-Instructor**
 Department of Rehabilitation Medicine
 University of Washington, Seattle, WA
- Perspectives on Inter-professional Practice (REHAB554).
 Graduate course for students in clinical preparation programs in Speech and Hearing Sciences and the Department of Rehabilitation Medicine.
- 2018– present **Instructor**
 Department of Speech and Hearing Sciences
 University of Washington, Seattle, WA
- Clinical Methods for Documenting Change (SPHSC 500)
 Master’s level course. Responsible for 100% of the course.
- 2019 **Co-Instructor**
 Department of Psychology, Speech, and Hearing
 University of Canterbury, Christchurch, New Zealand
- Voice Science and Disorders (CMDS 367 and 666)

Course for combined cohort of graduate and undergraduate students (an undergraduate degree is the entry level clinical degree in New Zealand). Responsible for 75% of the course.

Editorial Responsibilities

2017- 2018 **Editorial Board Member**
Journal of Speech, Language, and Hearing Research – Speech Section

Special International Responsibilities

2019 **Erskine Visiting Fellowship, University of Canterbury, Christchurch, NZ**
July – September, 2019.
Responsibilities for this invited fellowship included teaching the Voice Science and Disorders class as well as research lectures and research collaboration.

Special National Responsibilities

2013 – 2014 **American Speech-Language-Hearing Association Ad Hoc Committee on Patient-Reported Outcomes.** The purpose of this committee is to develop recommendations and a proposed plan as to how ASHA can help the profession of speech-language pathology meet the needs for patient-reported outcomes in health care settings. Role – committee member.

2014 - 2015 **American Speech-Language-Hearing Foundation:** Preliminary reviewer for scholarship and grant applications

2018 **Topic Committee Member for Motor Speech Disorders for American Speech-Language-Hearing Association Annual Convention.** Responsibilities include planning invited speakers as well as reviewing conference submissions to generate the convention program for this topic.

2018 **American Speech-Language-Hearing Foundation Grant Review and Reviewer Training.** Responsibilities included serving as a grant reviewer for various funding mechanisms sponsored by the Foundation.

Special Local Responsibilities

2013 – 2018 **Inter-professional Education Committee, Department of Rehabilitation Medicine, University of Washington.** The purpose of this committee is to explore and expand inter-professional rehabilitation educational opportunities. Note: this committee is a larger committee with a broader mission than the inter-professional course planning committee mentioned above in teaching responsibilities.

2017–present **PhD Program Core Faculty Committee Member, Department of Rehabilitation Medicine, University of Washington.** This committee of interprofessional faculty oversees administration and management of the PhD program in Rehabilitation Science. Responsibilities include review of applicants for admissions, curriculum development and deployment, student progress review, guidance for mentors, and related duties.

Research Funding

- 2003 – 2004 **NIH Pre-doctoral Departmental Training Grant** (PI: Chris Moore)
Pre-doctoral Trainee
University of Washington, Department of Speech and Hearing Sciences, Seattle, WA
- 2004 – 2007 **Pre-doctoral Research Assistant** (PI: Kathryn Yorkston)
Planning grant: Developing a scale of Communicative Participation (PI: Yorkston)
National Center for Medical Rehabilitation Research
University of Washington, Department of Rehabilitation Medicine, Seattle, WA
- 2007 – 2008 **T32 Post-doctoral Fellowship Rehabilitation Sciences** (PI: Kathryn Yorkston)
Post-doctoral Fellow
National Center for Medical Rehabilitation Research
University of Washington, Department of Rehabilitation Medicine, Seattle, WA
- 2008 – 2009 **University of Washington Advanced Rehabilitation Research Training Grant** (PI: Debbie Kartin)
Post-doctoral Fellow
National Institute of Disability and Rehabilitation Research
University of Washington, Department of Rehabilitation Medicine, Seattle, WA
- 2008 **Walter C. and Anita Stolov Research Award**
Research award recipient
Department of Rehabilitation Medicine, University of Washington, Seattle WA
This is an internal departmental research award given to graduate students and junior faculty for research development. The purpose of this award was to further development of the Communicative Participation Item Bank through qualitative interviews.
Total budget - \$1,000
- 2009 - 2013 **R03 National Institute for Deafness and other Communication Disorders**
Principal investigator
Measuring communicative participation in adults with communication disorders
The purpose of this grant was to validate / calibrate the Communicative Participation Item Bank for four communication disorder populations:

Parkinson's disease, multiple sclerosis, head and neck cancer, and amyotrophic lateral sclerosis.

Annual budget = \$100,000

- 2010 **Walter C. and Anita Stolov Research Award**
 Co-investigator
 Department of Rehabilitation Medicine, University of Washington, Seattle WA
 This is an internal departmental research award given to graduate students and junior faculty for research development. Project title: "The effects of training on the competence and attitudes of fourth year medical students regarding patient-provider communication with patients with communication disorders."
 Total budget - \$1,400
- 2012 **National Institute on Disability and Rehabilitation Research**
 Co-investigator
 This was a one-year supplement to an existing grant focusing on aging and disability. The purpose of the supplement was to conduct literature reviews related to secondary conditions across a range of healthcare conditions, and their associations with aging. My specific responsibility was the review of secondary conditions after stroke.
- 2013-2015 **American Speech-Language-Hearing Foundation Clinical Investigation Grant**
 Principal investigator
Validating the Communicative Participation Item Bank for individuals with aphasia
 The purpose of this grant is to validate the Communicative Participation Item Bank for individuals with aphasia; and to compare self-report of communicative participation from individuals with aphasia to proxy report by their caregivers.
 Annual budget = \$37,500
- 2013 – 2015 **R03 National Institute for Deafness and other Communication Disorders**
 Principal investigator
Patient-provider communication for patients with communication disorders
 The purpose of this project is to train standardized patients to portray patients with communication disorders; and then to utilize these standardized patients to assess learning outcomes of our program training medical and nursing students how to communicate effectively with patients with communication disorders.
 Annual budget = \$50,000
- 2013-2018 **R01 National Institute for Deafness and other Communication Disorders**
 Principal investigator
Communicative participation outcomes measurement in neurologic communication disorders

The purpose of this project is to conduct a repeated measures investigation of how communicative participation changes in response to traditional communication disorder interventions in four different populations: spasmodic dysphonia, vocal fold paralysis, Parkinson's disease, and motor speech disorders due to stroke.
Annual budget = \$225,000

- 2014 – 2019 **R01 National Institutes of Health / National Cancer Institute**
Co-investigator
Communication Outcomes after Head and Neck Cancer (PI: Eadie)
This research will further the Communicative Participation Item Bank (CPIB), and will identify mediators of communication success. The results may lead to the identification of better treatment methods for head and neck cancer survivors whose physical, social, and psychosocial well-being is impacted by the disease and its treatment.
Annual budget = \$250,000
- 2015 – 2017 **R21/R33 National Institutes of Health / National Institute for Deafness and other Communication Disorders**
Co-Investigator
Defining universal barriers to hearing health care (PI: Tremblay)
This research will use mixed methods of qualitative focus groups combined with survey methodology to examine barriers and facilitators for seeking hearing healthcare in adults age 60 and older. This project focuses on comparisons across the four countries of the United States, Canada, Australia, and Great Britain.
Annual budget = \$181,263
- 2018-2021 **R21 National Institute for Deafness and other Communication Disorders**
Co-investigator
Disparities in Patient-Centered Communication Experienced by Patients with Communication Disabilities (PI: Morris)
This study will determine whether providers use less patient-centered communication with patients with a communication disorder as compared to patients without a communication disorder, and will explore the provider-level factors, including implicit and explicit biases, that could impact the communication.
Annual budget = \$100,000
- 2018-2019 **Royalty Research Foundation – University of Washington**
Co-investigator
An Exploratory Study of Environment-level Rehabilitation Interventions to Enhance Community Participation for Children with Disabilities and their Families (PI: Jirikowic)
This study, led by PI Tracy Jirikowic, PhD, will investigate the outcomes and experiences of children with disabilities and their family members at sensory friendly performances of a local children's theater.
Annual budget - \$36,600

2019-2020 **National Spasmodic Dysphonia Association / Cure Dystonia Now**
 Co-investigator
Validation of the Communicative Participation Item Bank as an outcome measure for Spasmodic Dysphonia (PI: Pitman)
 This study, led by PI Michael Pitman, MD, at Columbia University, will validate the Communicative Participation Item Bank specifically for individuals with spasmodic dysphonia
 Annual budget - \$63,868

(2018). *Unilateral vocal fold immobility: Qualitative and quantitative evidence for clinically meaningful changes in communicative participation.* Paper presented at the American Speech-Language-Hearing Association Annual Convention, Boston, MA.
 58. Eadie, T., Kapsner-Smith, M., Bolt, S., Sauder, C., **Baylor, C.**, Yorkston, K., & Futran, N. (2018). *Communicative participation and quality of life in pre-treatment patients with head and neck cancer.* Paper presented at the American Speech-Language-Hearing Association Annual Convention, Boston, MA.
 59. Mach, H., Hunting Pompon, R., **Baylor, C.**, & Yorkston, K. (accepted - 2019). *How SLPs involve family members when addressing dysphagia in people with Parkinson's disease.* Paper presented at the American Speech-Language-Hearing Association Annual Convention, Orlando, FL.
 60. Cohen, M., **Baylor, C.**, & Yorkston, K. (accepted - 2019). *Patient-reported outcomes for adults with communication disorders: opportunities & challenges.* Paper presented at the American Speech-Language-Hearing Association Annual Convention, Orlando, FL.

61. Yorkston, K., **Baylor, C.**, & Eadie, T. (accepted - 2019). *Diversity of communicative participation outcomes after Botox injections for spasmodic dysphonia: implications for SLPs*. Paper presented at the American Speech-Language-Hearing Association Annual Convention, Orlando, FL.
62. Leyhe, A., Off, C., **Baylor, C.**, & Griffin, J. (accepted - 2019). *Patient perspectives of an intensive comprehensive aphasia program for stroke survivors*. Paper presented at the American Speech-Language-Hearing Association Annual Convention, Orlando, FL.

National Invited Lectures

1. **Baylor, C.** & Eadie, T. (2008). *Outcome measurement for spasmodic dysphonia: Asking the experts*. Invited lecture at the National Spasmodic Dysphonia Association Symposium. Salt Lake City, UT.
2. **Baylor, C.**, & Yorkston, K. (2014). *Measuring communicative participation in adults with motor speech disorders: Clinical options and implications*. Invited paper presented at the American Speech-Language-Hearing Association Annual Convention, Orlando, FL.
3. **Baylor, C.** (2015). *Improving communicative participation for people with motor speech (and other) disorders: Is this something different?* Invited paper presented at the Academy of Neurogenic Communication Disorders and Sciences Annual Meeting, Denver, CO.
4. **Baylor, C.**, Eadie, T., & Yorkston, K. (2015). *Changing lives? Meaningful changes in communicative participation for people with voice disorders*. Invited paper presented at the American Speech-Language-Hearing Association Annual Convention, Denver, CO.
5. **Baylor, C.** (2016). *Measuring Communicative Participation (in aging)*. Invited paper presented at the Oregon Health Sciences University Communication and Aging Symposium, Portland, OR.
6. **Baylor, C.**, & Darling-White, M. (2017). *Life participation IS the big picture: Practices for children and adults with motor speech disorders*. Paper presented at the American Speech Language Hearing Association Annual Convention, Los Angeles, CA.
7. **Baylor, C.** (2018). *Life participation: measuring, mapping, and magnifying our services*. Full day workshop presented at the University of Utah Summer Seminar, Salt Lake City, UT.
8. **Baylor, C.**, & Yorkston, K. (2018). *What adults with neurologic disorders tell us about communicative participation: Time for revolution or evolution?* Paper presented at the American Speech-Language-Hearing Association Annual Convention, Boston, MA.

9. **Baylor, C., & Burns, M.** (accepted 2019). *Developing standardized patient cases for clinical training or research simulations: A step by step guide*. Paper presented at the American Speech-Language Hearing Association Annual Convention, Orlando, FL.

International Invited Lectures

1. **Baylor, C., Yorkston, K., Amtmann, D., & Eadie, T.** (2012). *Assessing Communicative Participation*. University of Gothenburg, Gothenburg, Sweden.
2. **Baylor, C., Burns, M., Morris, M., Yorkston, K., & McNalley, T.** (2012). *Patient-provider communication for people with communication disorders (PPC-CD): Teaching healthcare providers*. University of Gothenburg, Gothenburg, Sweden.
3. **Yorkston, K., & Baylor, C.** (2012). *Enhancing participation in motor speech disorders*. University of Gothenburg, Gothenburg, Sweden.
4. **Yorkston, K., & Baylor, C.** (2012). *Participation-focused intervention*. University of Gothenburg, Gothenburg, Sweden.
5. **Yorkston, K., & Baylor, C.** (2013). *Enhancing Participation in Motor Speech Disorders*. A 2-hour workshop presented via internet to the Special Interest Group, Dorset, UK.
6. **Baylor, C.** (2019). *"Hey Doctor, can you help me with my flugbsrg?" Preparing doctors, nurses, and allied health providers to care for patients with communication disabilities*. University of Canterbury Visiting Erskine Fellow Lecture, Christchurch, New Zealand.

Local Invited Lectures

1. **Baylor, C., Yorkston, K., Burns, M., & McNalley, T.** (2012). *Making your voice heard at the doctor's office (preparing people with aphasia to interact with their healthcare providers)*. Paper presented at the University of Washington Annual Aphasia Day. Seattle, WA.
2. **Baylor, C.** (2013). *"The puppy bit the tape:" Measuring participation outcomes in speech-language pathology*. Justus F. Lehmann Symposium. University of Washington, Seattle, WA.
3. **Baylor, C.** (2014). *Developing a clinical tool to measure communicative participation in adults*. Seminars in Hearing and Communication Sciences. Department of Speech and Hearing Sciences, University of Washington, Seattle, WA.
4. **Baylor, C., & Burns, M.** (2017). *Training Medical and Allied Health Students to Communicate with Patients with Communication Disorders*. Paper presented at the

Seminars in Communication and Hearing Sciences, Department of Speech and Hearing Sciences, University of Washington, Seattle, WA.

5. **Baylor, C., & Burns, M** (2019; scheduled 2020): *Effective patient-provider communication with patients who have communication disorders*. Guest session for the University of Washington School of Medicine Interprofessional Active Learning Series (UW IPALS)

Local invited lectures also include annual guest lectures in each of the Divisions of Occupational Therapy, Physical Therapy, and Prosthetics and Orthotics; as well as the School of Dentistry at the University of Washington on the topic of patient-provider communication for patients with communication disorders.

Service to the Profession:

- 2008 – 2009 Presentations on child speech and language development to parent groups through the PEPS program (Program for Early Parent Support) in Seattle, WA
- 2011 Co-organizer of a public education booth on voice physiology and vocal health at the UW Paws-On Science fair at Pacific Science Center, Seattle
- 2015 Faculty mentor for public education booth on voice and hearing health representing the Department of Speech and Hearing Sciences at the UW Paws-On Science fair at Pacific Science Center, Seattle

Additional volunteer service activities described under the sections on Special Local Responsibilities and Special National Responsibilities.
